

Solution:

A: Paulo Coelho is a Brazilian author who wrote "The Alchemist" and many other best-selling books. "The Alchemist" is a novel that tells the story of Santiago, a shepherd boy who dreams of finding treasure in the pyramids of Egypt, and his journey of self-discovery as he pursues his dream.

B: "The Alchemist" is a novel by Paulo Coelho (A), first published in 1988. It is sometimes referred to as the proof of the "heart of the universe" because the book emphasizes the idea that the universe is inherently benevolent and that everything in it is connected.

C: The symbol of "The Alchemist" is a circle with a dot in the center, which represents the "Soul of the World" in the book. It's a symbol of the unity and interconnectedness of all things. Its symbol also represents sun or a cosmic body in space.

D: Orion Constellation, is a constellation that has a distinctive pattern of three bright stars in a row, which are often referred to as Orion's Belt. Thus tripling C can refer to D, also the Orion Constellation is currently visible in the night sky. It is of great significance in Hindu mythology and culture.

E: Lord Shiva, In addition, the star Betelgeuse, which is part of the Orion constellation, is known as Ardra in Indian astronomy, and is associated with the god Rudra, who is considered to be an incarnation of Lord Shiva. The star's brightness and color have been associated with Rudra's fiery nature and his role as a destroyer of evil.

F: God Brahma, In Hindu mythology, the constellation is associated with the god Brahma, who is known as the creator of the universe. According to the Puranas (ancient Hindu texts), Brahma is said to have created the constellation as a form of meditation and worship, and it is also believed to represent his sacred cow.
